Past 1500-2500 Times Period of Genius Constructive Change Leaders

Cyrus the Great Leader Father of First Declaration of Human Rights

Upon conquering Babylon, Cyrus is said to have proclaimed, "Today, I announce that everyone is free to choose a religion. People are free to live in all regions and take up a job provided that they never violate other's rights."

This acknowledgement of human rights and freedom of religion—made more than 2,500 years ago by perhaps the most powerful man on Earth at the time—was an astounding example of benevolence, tolerance, and mercy. True to his word, Cyrus respected the customs and religions of the lands he conquered. Upon conquering Babylon, he is said to have freed the Jews there from captivity.

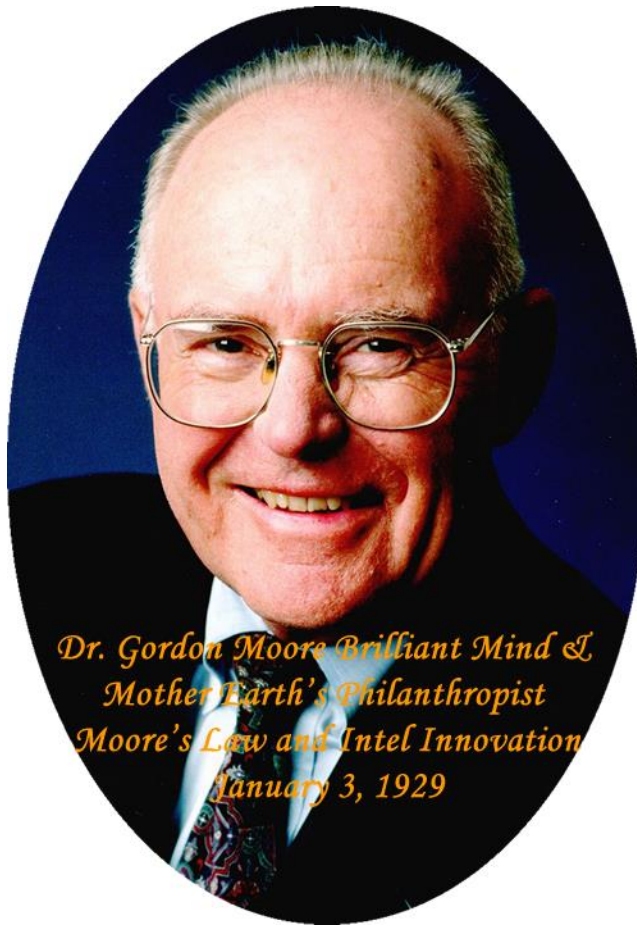

Historians suggest that the [Achaemenid Persian Empire](#) of [ancient Iran](#) established unprecedented principles of human rights in the 6th century BC under [Cyrus the Great](#). After his conquest of the [Neo-Babylonian Empire](#) in 539 BC, the king issued the [Cyrus cylinder](#), discovered in 1879 and seen by some today as the first human rights document.^{[10][11][12]} The cylinder has been linked by some commentators to the decrees of Cyrus recorded in the [Books of Chronicles](#), [Nehemiah](#), and [Ezra](#), which state that Cyrus allowed (at least some of) the Jews to return to their homeland from their [Babylonian Captivity](#). Additionally it stated the freedom to practice one's faith without persecution and forced conversions.^{[13][14]}

This is intriguing. In Immortal Elihu Vedder's thoughts, was the pollution of the late-nineteenth-century industrial revolution the result of corrupt legislation? Were the harmful effects of corruption best seen in the permissive environmental regulation of the period? What can we learn from this mural about current attitudes toward pollution and Mother Earth Rights Law?

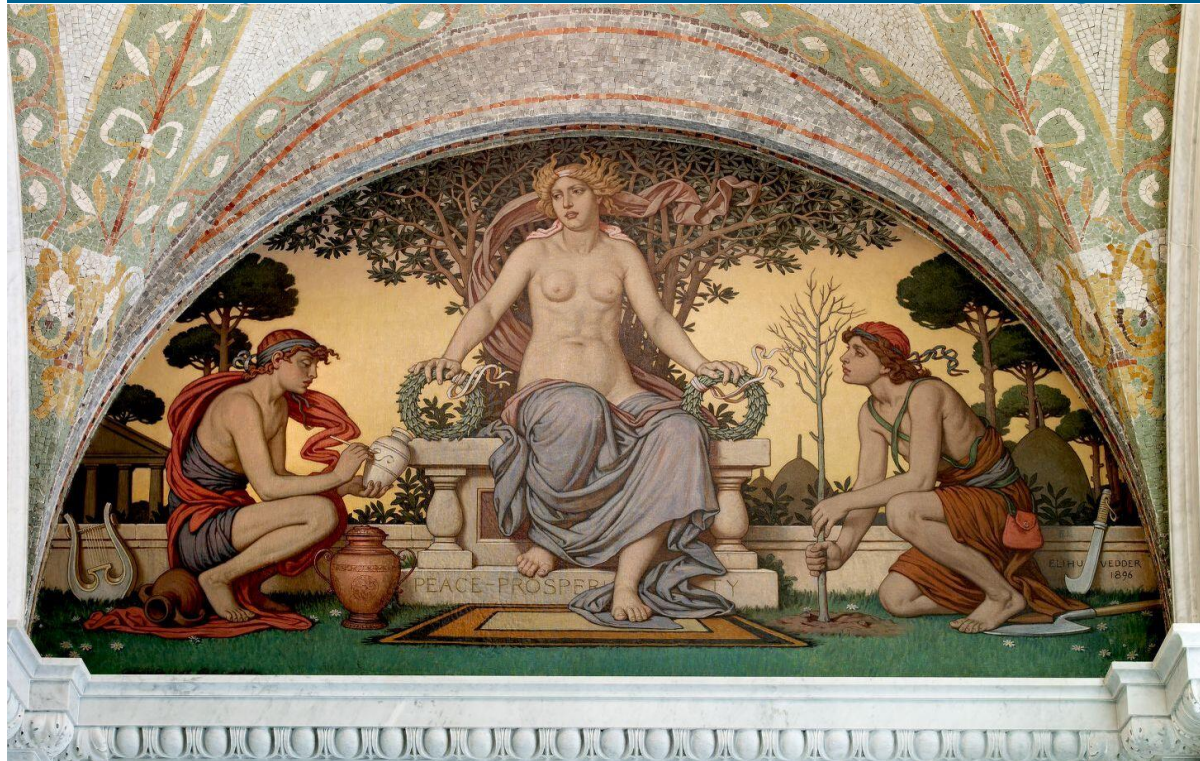

This is for educating Next Generation Ethical Leadership, please let me know about your thoughts!
