“This alarming death toll is further evidence that Iran’s security forces went on a horrific killing spree, that left at least 208 people dead in less than a week. This shocking death toll displays the Iranian authorities’ shameful disregard for human life,” said Philip Luther, Research and Advocacy Director for the Middle East and North Africa at Amnesty International.

Reminding Historical Facts and Truth:

In the spirit of the Nobel Laureates Immortal Elie Wiesel “Massager of Mankind “ remind part of shameful history of Europe in order not to repeat it again.

Brilliant Mind John Hopkins and Tehran University trained physician Prof. Ari Babaknia M.D. From his New Book “Humanity, NOT “ [3], Page 250 stated “During the Holocaust mankind was divided into just and unjust with no neutrality because the neutral ones were guilty as accomplices, especially in the free countries like America, Switzerland or

the Vatican. Surely they were guilty by not helping, by not taking sides or by waiting.” We must remember that: “What you don’t say carries weight”

Prof. Ari Babaknia M.D. From New Book “Humanity, NOT “ [3], Page 248

“INACTION, IF NOT COMPLICITY The exploration of the analogies between the Armenian Genocide and the Holocaust establishes several themes that are central to the moral lessons of Holocaust. For example, Hitler used the excuse of the world’s indifference to Armenian suffering to silence his Cabinet opposition and as a license to proceed at will with the destruction of Jews without the fear of permanent negative consequences.” “The world that was silent yesterday, will remain silent tomorrow, unless we open our eyes to someone else’s suffering.” This is new test case for free world leaders and media

In spirit of Greatest leaders of all time Cyrus the Great and American Founding Fathers Washington, Jefferson and Madison that they have been INSPIRED BY CYRUS THE GREAT by Prof. Richard N. Frye, Harvard University, today it is the irony of history that in the Motherland of Cyrus The Great, the birthplace of the first charter of the Rights of Nations and the Declaration and implementation of Human Rights over 2500 years ago, there is today no respect for human and civil rights by the Islamist Fascist regime the Invaders and occupiers of Iran . Cyrus, who was exceptionally tolerant of local religions and local customs and against slavery, is famous for freeing the 42,000 Jewish captives and allowing them to return to their homeland. His name appears twenty two times in the Bible. Were it not for Cyrus, it seems at least possible that the great Iranian Jewish people would have become extinct in the fifth century BC and we would have never received their great contributions to mankind medicine, arts, and science. Unfortunately, present day Iran is taken hostage by a small group of Islamic Mafia Clerics who are the embodiment of evil and have no respect for Human Rights, Women Rights, Animal Rights, Gender Equality in the land of Cyrus the Great which is the birthplace of Darius The Great, Razi, Babak, Avicenna (Ibn Sina), Ferdowsi, Khayyam, Hafiz, Saadi and Rumi.... We need the help and full support from the leaders of the free world to change this regime with no / minimum bloodshed by freedom loving people of Iran.

Humanity, NOT takes an in-depth look, in words and images at the captured emotions of the victims, perpetrators, bystanders, and survivors of the Holocaust told in their own words. Reading first-hand horrifying experiences of the victims as well as some thoughts from philosophers and scholars helps us understand that: "Reaction to the Holocaust has to be other than mere horror and revulsion. It has to be more than empathy with the victims, sharing their fear and some part of their actual suffering."

Open Letter

December 09, 2019

Mr. Antonio Guterres
Secretary-General, United Nations
United Nations Headquarters
405 East 42nd Street
New York, New York 10017

Your Excellency,

I am writing to you and your high office yet again with respect to the most recent atrocities taking place in Iran and to communicate my compatriots' expectations of effective measures to be undertaken by the United Nations.

As you are aware, during the past month, the people of Iran have been engaged in a massive, grassroots protest movement. This movement for liberty and dignity has spread to over two hundred cities across Iran and is supported by Iranians around the world. Triggered by a two hundred percent hike in petrol prices due to the regime's endemic mismanagement and corruption, this most recent uprising is based on the widespread discontent of the Iranian people. This discontent, and the associated aspiration to put an end to this regime, is the result of not only forty years of oppression but also the pervasive suffering of a disenfranchised nation.

This regime, in response to the noble aspirations of the Iranian nation, has perpetrated only further brutal repression and violence. This includes the killing of hundreds of protestors, including children, as well as the maiming, torturing, and unjust and baseless imprisonment of thousands more. In an attempt to quell the protests and prevent the world from witnessing the regime's wanton massacre, the Islamic Republic shut down internet access throughout the country and also disrupted landline and mobile phone connections, limiting Iranians' ability to communicate both internally and externally.

Your Excellency, the atrocities perpetrated in Iran are crimes against humanity. They include the systematic jailing, torturing and killing of countless ordinary Iranians on the basis of their cultural identity and national aspirations. It is clear that this regime, through its brutal repression and mass murder of Iranians, seeks the destruction of the Iranian nation and its history. Your Excellency, what the Iranian people are facing today is effectively a genocide.

I urge you to use all means at your disposal to end this massacre, including the United Nations Security Council. In a letter addressed to your predecessor in 2012, I highlighted the role this body must play in referring our well-evidenced claim to the International Criminal Court under Article 13-b of the Rome Statute. Today, the burden of conscience, responsibility, and action rests even more heavily on your shoulders. Silence at the United Nations will be interpreted as condoning the Islamic Republic's actions. The United Nations, which holds the safeguarding of human rights as a principal mandate, can no longer watch silently but must take urgent and immediate measures to stop the Islamic Republic from continuing its massacre of our people.

Yours sincerely,

Reza Pahlavi
