Why Should We Protest Peacefully Against President Biden to Reverse His Decision?

If President Biden does not reverse his decision, Afghanistan will be under the control of the Taliban. Therefore, Biden will be responsible for the Genocide in Afghanistan.

McMaster said in an interview about the deadly attacks in Kabul. "We are going to see horrible image after horrible image. ... We're going to confront the steady drumbeat of horrors inflicted on the Afghan people. What are we going to do about it? Are we going to give a damn? Or is this going to be like Rwanda?" He was referring to the genocide in 1994, when ethnic extremists slaughtered 800,000 people in Rwanda.[17]

Why Has "War On Terror" become too expensive and Failed Due to Presidents & G7 Islamist Appeasement Policy by Disabling Cultural Component?

The War on Terror has become expensive, long and failed due to Islamist Appeasement policy by US Presidents & G7 supporting Evil #COVID1979 Islamist regime in Iran and ignoring Powerful Cultural Warfare Component like Women Rights against Islamist and Islam, the US officials should not have negotiated with Islamist Taliban and helped them come to power in Afghanistan .

Can President Biden guarantee Afghan Women would have the same level of freedom and rights under the Taliban as American Women?

President of the United States of America or any other leaders in the world should not make any compromise against the reported violation of women rights, Genocide, International Crimes against Humanity with the Taliban in Afghanistan or Islamist regime in Iran or any other countries or terrorist organizations or any kind of devils. The 11 crimes against humanity entail extermination, murder, enslavement, torture, imprisonment, rape, forced abortions and other sexual violence, persecution on political, religious, racial and gender grounds, the forcible transfer of populations, the enforced disappearance of persons and the inhumane act of knowingly ...

["American troops cannot and should not be fighting in a war and dying in a war](#) that Afghan forces are not willing to fight for themselves," he said during remarks [15]

General Sami Sadat, a three-star general who once commanded Afghanistan's special forces" The Afghan army has suffered mightily during the war in Afghanistan, with about one-fifth of its total fighting force, 66,000 people dying over the last 20 years. That would be the equivalent of [260,000 American troops dying](#), given the relative sizes of the two military forces." [15]

How Victory of Taliban Engineered and Why by Who:

Why was Bagram Air Base among the first instruments of the U.S. power to be withdrawn first?
Who authorized this decision?

5000 Taliban prisoner releases bolstered the Taliban to victory [16]

General Sami Sadat "the Biden administration continued to go through with the Trump administration's general plan, pulling back troop levels as well as the thousands of military contractors essential to maintaining supplies for troops and technology like helicopters and drones that gave the Afghan army advantages over the Taliban."

Is President Biden sharing truth with the American people must be investigated by Justice Dept & FBI? Please Reference [15]

If as a country, we want to win back the trust of 80% of the American population for our system of government and elected officials, then the independent nonpartisan justice department members, the FBI and Defense Department must act NOW and open investigations regarding the past 40 years failures, successes and Trillion dollars of possible wastes with corrupt intent by several presidents and elected officials from both political parties in the name of National Interests. Evil Secrecy and negotiating with the devil and terror masters must be investigated fairly and reported to the American people. Ethical officials must find out which Islamist lobbyist groups from which countries are paying for President Biden's Islamist appeasement policy against Women's Rights American National Interests. For every bad policy and decision against National Interests and Public Interests, we must follow the dirty money.

After Sept. 11, 2001 American people and the international community learned about the brutality of the Taliban, including its barbaric treatment of female Afghans and Genocide. They prohibited girls from basic rights of being educated, imprisoned women in their homes, and often subjected them to violence, humiliation, torture and gruesome executions

In early July we as part of Activists Network for Women's Rights requested from President Biden to stop troops withdrawal from Afghanistan to avoid another Genocide and massacre of girls and women as long as murderous, hostage takers, the illegitimate Islamist Genocide regime is in Power in Iran and Islamist Taliban exist in Afghanistan. President Biden did not reverse his decision.

In this petition we prove that the President Biden has made the wrong decision regarding Afghanistan at this Strategic Inflection Point against American National interests due to his bad judgement and the Kabul withdrawal is considered as an expensive shameful embarrassing disaster for USA, betrayal of our allies and freedom loving American women. Our attention needs to be on the lives and futures of the Afghan people, particularly women and girls, whose enormous progress over the past 20 years will be lost.

Who are we and why 80% of American don't trust any presidents in past 6 decades?

We are independent nonprofit, nonpartisan innovative activists who are part of 80% of US free society that we may not trust any president blindly unless we can verify root causes of a problem and crisis based on facts and reliable real data from multiple sources.

Based on Pew Research Center Public Trust in Government: 1958-2021 reports Only about one-quarter of Americans say they can trust the government in Washington to do what is right. However, in 1958, about 75% of Americans trusted the federal government to do the right thing almost always or most of the time. Public Trust in US Government elected officials has been lost after President Eisenhower and JFK and remains low since President Lyndon Johnson, currently less than one-quarter of Americans say they can trust the government in Washington, and for the congress is less than 15% [7] If you may wonder why in past 7 decades great majority of American have lost their trust in elected officials, then we need to discuss multiple factors, however a short video from our brilliant Food Revolution Leader Scholar John Robbins might give you some idea why we have lost our trust Source: <https://youtu.be/bCjeWqHAp4I>

President Biden Did Not Share Historical Facts and Truth with American People Regarding Disastrous US Islamist Appeasement Policy Over past 4 Decades and How different presidents created today's Afghanistan mess wasted over Trillion dollars:

How & When Islamist Mess and Terror Started:

- President Reagan Exposed the truth and facts regarding Betrayal of Swiss educated Secular Shah of Iran by President Carter, UK, France and G7 regarding engineered Islamic Revolution and creation of Islamic Government for Evil Agenda of cheaper Oil and Wars that resulted Climate Change and Ecocide Crimes against Mother Earth in past 40 years. Please watch President Reagan Short Video Clip: <https://youtu.be/xy9PSEuY0Xo>

- The world's most destructive Islamist Terror network began in 1979 after Soviet invasion of Afghanistan with blessing and support of President Carter in Pakistan please watch short video of US National Security Adviser Zbigniew Brzezinski Taliban Pakistan Afghanistan pep talk 1979 <https://youtu.be/kYvO3qAlyTg>
- President Carter Islamist strategy and policy for Middle East is against spirit of Thomas Jefferson "Separation of church and state" and US Constitution. Reminding president Biden that he was supporting this destructive Islamist appeasement policy as a Senator against both short term and long-term National Interests of USA.
- In July 2003, General Alexander Haig, NATO commander during the Carter Administration, publicly discuss Carter's complicity in toppling the Shah's regime. General Haig indicated that he resigned his post at NATO after discovering the administration had turned its back on the Shah. This is an example of decision makers leadership team that don't listen to brilliant Generals. President Carter and other presidents after him responsible for past 40 years Islamist appeasement genocide regime in Iran and terrorists event disasters.
- Since 1979 the G7 Islamist appeasement policy resulted number of wars and creation of number of Illegitimate Islamic governments and Islamist Terrorist organizations. As a result, Multi Millions of Deaths and Multi Trillions of dollars Waste and Destruction for people of Iran, USA, Iraq, Afghanistan, Syria and others. Multi Trillion Dollars resources that could have been allocated in past 40 years for constructive projects preventing Global Warming and Ecocide used to speeding Global Warming and Ecocide. Due to extreme destructive nature of over 4 decades Shameful Islamist appeasement Policy by G7 and extreme stupidity of million Islamist Taliban and Ayatollahs Terror and Torture Masters in Iran (they have less than the 2% hard core supporters), Iraq, Afghanistan, Syria, Lebanon, Saudi Arabia and others it is best to be referred as Engineered COVID1979 by G7. The biggest innocent victims of the COVID1979 were women, girls, children and violations of human rights.
- **“The war on terror has become the longest ongoing armed conflict in the history of the United States. It has cost the US over \$5 trillion² and claimed the lives of more than 7,000 American military personnel³ Yet, as the war on terror enters its third decade, any kind of meaningful victory seems more distant than ever.”**[18] Due to US Presidents & G7 Islamist Appeasement policy supporting Evil COVID1979 Islamist regime in Iran and ignoring Powerful Cultural Warfare Component like Women Rights against Islamist and Islam the War on Terror has become expensive, long and failed shamefully specially when US negotiated with Taliban and helped them come to power in Afghanistan . Based on Secular Free Iran ActivistChat public petition proposal to elected US Leadership official team members over 17 years ago on Friday May 14th, 2004 [PETITION: TRUE SECURITY BEGINS WITH REGIME CHANGE IN IRAN](http://www.activistchat.com/petition4.html)
<http://www.activistchat.com/petition4.html> (activistchat.com)

The US government leadership team members of 4 presidents ignored our suggestion, we are sure similar proposal options have suggested by intelligence communities or brilliant generals and rejected. Now current elected leadership officials must explain to American people why they have failed us. Unfortunately, now we are facing embarrassing US troops withdrawal from Afghanistan criticized by our allies, made the Islamist Terrorists happy and we should be concerned regarding basic Women's Rights of 18 million Afghan Women and Girls as hostages of Taliban

- **AMERICAN IDEALS. UNIVERSAL VALUES.**

On human rights, the United States must be a beacon. Activists fighting for freedom around the globe continue to look to our country for inspiration and count on us for support. Upholding human rights is not only a moral obligation; it's a vital national interest: America is strongest when our policies and actions match our values.[21]

- Those two wars cost trillions of dollars and the lives of 7,064 American troops, more than double the number that perished on 9/11, and led to a crisis of military veteran suicides, totalling more than 30,000. Ultimately, many thousands of civilians in Iraq and Afghanistan perished in conflicts that were either launched in response to 9/11 or grew out of their consequences.[22]
- Case and point at this Strategic Inflection Point of history the top priority must be Islamist Regime change in Iran and protecting Afghanistan women otherwise after Biden disastrous Afghanistan withdrawal US will lose its superpower status and cannot be trusted as leader of Free World Secular democracy, Women's Rights, Stop Ecocide and Protect Mother Earth. Weak Superpower may create Chaos and many new wars. Based on stated facts by President Reagan, Secretary of State Hillary Clinton and other US officials since President Carter almost all presidents and G7 countries are responsible for creating, supporting and appeasing Islamist regimes in Iran, Afghanistan, Iraq, Syria and others under propaganda of democracy. Different Presidents helped creating Islamist terrorist state and countries. To be faithful to the AMERICAN IDEALS, UNIVERSAL VALUES we must change our Islamist policy to clean up Islamist Terrorist mess that our Presidents created since 1979. US and NATO Troops cannot leave Middle East unless they clean up their own Islamist Mess. Iranian people rejected Islamist Mafia

regime thugs and in past 20 years had many uprisings however G7 and Presidents of US not supported Iranian Women's Rights and Human Rights for hidden destructive agenda against the AMERICAN IDEALS, UNIVERSAL VALUES.

-

- **Short Term Solution to Protect Women Rights in Afghanistan:**

President Biden must reverse withdrawal of USA Troops from Afghanistan as long as UN or possible future Government of Afghanistan cannot guarantee safety of Afghan women, girls, and secular free society.

Former U.N. Ambassador Nikki Haley "negotiating with the Taliban is like dealing with the devil."

"INACTION, IF NOT COMPLICITY"

- 1- Based on President Biden statement "How could I be the President of the United States of America and not speak out against the violation of human rights?" President Joe Biden cannot withdrawal Afghanistan because this is against USA National Interest as long as Taliban Exist and Islamist Regime of Criminals in Iran are in Power. This is considered as Islamist appeasement policy and indirect Women Rights, Human Rights violation , Genocide against freedom loving Iranian and Afghan people.
- 2- President George W. Bush Objected to Biden Decision:
On the withdrawal of NATO troops in Afghanistan, President Bush said: "Afghan women and girls are going to suffer unspeakable harm. Former President George W. Bush Says Afghanistan Withdrawal Is a Mistake: 'Breaks My Heart' he believes the Biden administration's draw-down of U.S. forces in Afghanistan will have "unbelievably bad" consequences. <https://youtu.be/E-QcTTngCeo?t=1193> They're just going to be left behind to be slaughtered by these very brutal people, and it breaks my heart." He said he suspected that Angela Merkel "feels the same way." [4]
- 3- How USA Military won the battles and still lose the war because President Obama as an inexperienced orator president as part of his Islamist Appeasement policy called "Islam is a Great Religion" "It took only two months for Great U.S. Military to topple the Taliban in Afghanistan in 2001, a seemingly tidy success against a government that had given refuge to 9/11 mastermind Osama bin Laden. Twenty years later, the United States is withdrawing — visions of victory long vanished and an ascendant Taliban arguably within reach of restoring their rule."
- 4- "Over 20 years ago America and the international community learned about the brutality of the Taliban, including its barbaric treatment of female Afghans. They prohibited girls from being educated, imprisoned women in their homes, and often subjected them to violence, humiliation, torture and gruesome execution.

- 5- Any Government that makes law based on established religion or Sharia Laws against Women Rights, Human Rights, Prevent Girls Education and Gender Equality, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, or freedom of travel is considered as illegitimate and must be rejected by UN member countries. Based on historical facts and images that worth more than 1000 words the Taliban as Islamist Terror, Fear, Torture Masters organization has zero legitimacy to be in control of Afghanistan, they have to put down their weapon and go back to their Mosques.
- 6- Anyone paying the slightest attention knew in advance that a premature U.S. troop withdrawal from Afghanistan, based on keeping to a certain deadline, would likely result in a Taliban takeover. As [The New York Times reported](#) Aug. 18, the “intelligence agencies warned for years about the Taliban’s strength and the likelihood that the Afghan government and military could not hold on after U.S. and international military forces left.”
- 7- **President Biden lying to American people must be investigated by Justice Dept & FBI :** [“American troops cannot and should not be fighting in a war and dying in a war](#) that Afghan forces are not willing to fight for themselves,” he said during remarks last week.[15] General Sami Sadat, a three-star general who once commanded Afghanistan’s special forces ”The Afghan army has suffered mightily during the war in Afghanistan, with about one fifth of its total fighting force, 66,000 people, dying over the last 20 years. That would be the equivalent of [260,000 American troops dying](#), given the relative sizes of the two military forces.”[15]
- 8- **‘We were betrayed’: Top Afghan general points finger at Trump, Biden and Ghani for Taliban victory**
Donald Trump, Joe Biden, former Afghan president Ashraf Ghani — these are just a few of the people who “betrayed” Afghanistan and “doomed” the country to Taliban rule, according to a scathing post-mortem of the war effort from a former top general in the Afghan military.
“We were betrayed by politics and presidents,” Sami Sadat, a three-star general who once commanded Afghanistan’s special forces, wrote in an opinion piece in The New York Times on Wednesday. “This was not an Afghan war only; it was an international war, with many militaries involved. It would have been impossible for one army alone, ours, to take up the job and fight. This was a military defeat, but it emanated from political failure.”
- 9- Next, the general argued, the Biden administration continued to go through with the Trump administration’s general plan, pulling back troop levels as well as the thousands of military contractors essential to maintaining supplies for troops and technology like helicopters and drones that gave the Afghan army advantages over the Taliban.

“It pains me to see Mr Biden and Western officials are blaming the Afghan Army for collapsing without mentioning the underlying reasons that happened,” the general added in his article. “Political divisions in Kabul and Washington strangled the army and limited our ability to do our jobs.”

10- “President [Joe Biden](#) and his administration stuck their heads in the sand and pretended that they hadn’t just initiated one of the most historic foreign policy failures in decades. Not only are the people of Afghanistan paying the price, but the US is now, too.” [19]

11- It’s not that leaving Afghanistan itself is the problem. It’s how this administration did it, seemingly without a care in the world for the people of Afghanistan, nor the 18 million Afghan women who the US just threw under the bus. This was a completely avoidable tragedy that Biden couldn’t be bothered to prevent because his administration does not care about the people of Afghanistan or the women of Afghanistan or any other “undesirables.”[19]

12- The irony of this, of course, is that it is Biden’s party parading around pretending they are a progressive party of human rights and women’s rights. However, taking a stand against the Taliban isn’t on their human rights agenda; in fact, the Biden administration and many Democratic officials have doubled down and done the opposite, defending Biden’s imbecilic decision while Afghan women and children literally languish in sewage outside the airport in Kabul. And let’s not forget also that American citizens and Afghan contractors who have helped American troops while in Afghanistan remain stranded on the ground with this feckless administration doing nothing to help.[19]

14- Taliban fighters going door to door looking for Afghan collaborators who assisted the US. If all that wasn’t enough, the American withdrawal literally armed the Taliban by leaving thousands of guns, “2,000 armored vehicles, and up to 40 aircraft potentially

including UH-60 Black Hawks, scout attack helicopters, and ScanEagle military drones,” according to Reuters.[19]

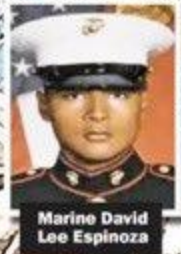

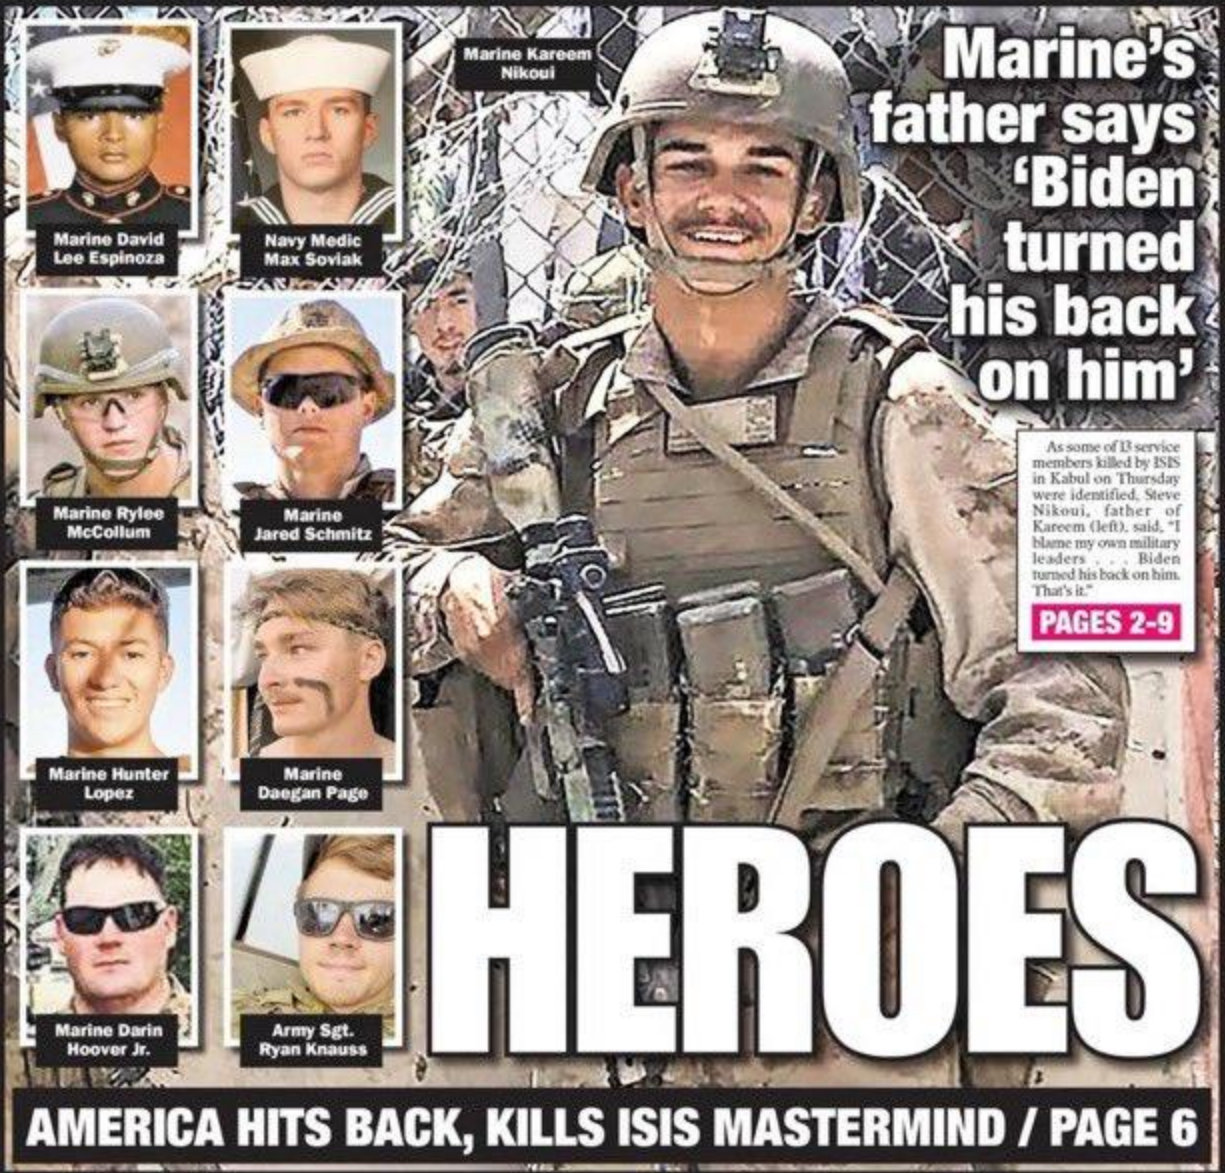

- 15- When the Taliban took control of Kabul, they promised that women would have rights and education “within Sharia law” – yet only hours later, a woman was shot for not wearing a hijab. Even before the Taliban took Kabul, there were reports of the Taliban demanding cities turn over lists of all their unmarried girls and women in order to be married off to Taliban fighters. Women have already been fired from their places of work, and have disappeared within days from public life. Some 20 years of progress for 18 million Afghan women, gone in an instant because of a lack of foresight and planning from the president of the United States.[19]
- 16- Despite the fantastical thinking from the Biden administration and the pleas of US allies not to withdraw from Afghanistan by August 31, and the desperation of Afghans to escape from the grip of the Taliban to the point they’re hanging on to planes as they take off and throwing their babies over the airport barriers – tragically, Afghanistan will likely continue its descent into chaos. Perhaps the most sickening thing of all this mess is the US leadership’s hypocrisy and utter lack of moral concern for the people of Afghanistan after 20 years of working with Afghan allies to rebuild their nation.[19]
- 17- No matter what one thinks of the justifications for war in the first place, it is unquestionable that this withdrawal is inconceivably irresponsible, immoral and irretrievably bungled. The Biden administration has strengthened the Taliban and in the process sent a message to terrorist organizations and regimes like Iran that the US will continue to retreat in the face of terrorism. This is bad not only for the US and its allies, it’s also quite dangerous for the minorities, women and other vulnerable groups persecuted by human rights violators like the Taliban. So much for a leadership of progressive values and human rights.[20]
- 18- In 2017, Donald Trump’s first year in office, the new Republican president’s instinct was to wind down the war in Afghanistan, but his national security adviser, H.R. McMaster, pressured him to send more troops. McMaster reportedly presented Trump **“with a black-and-white snapshot from 1972 of Afghan women in miniskirts walking through Kabul, to show him that Western norms had existed there before and could return.”**

It worked. Trump, who before entering the White House had called the war a “total disaster” and said the U.S. “should leave Afghanistan immediately,” agreed to escalate troop levels.

President Biden has handed over BILLIONS of dollars' worth of American military equipment to the Taliban in his chaotic exit from Afghanistan. Let that sink in.
